

# Oliver Robinson

## For National Policy Forum Rep

### Open. Socialist. Democratic.

Labour Students must face fundamental reform, and it's simple:

- **One-Member, One-vote** using the party lists, not an unconstitutional workaround
- **No club denied affiliation**
- **No student denied a vote**
- Deliver on the **Trans Officer**
- **Work with all Trade Unions**, including the UCU

No more vacuous nonsense, no more flashy slogans. Labour Students needs to function openly and it's that simple.

### About me:

I'm a **City Councillor** in Lancaster, where I represent the youngest ward in the country.

Through this work, I'm well used to **representing the views of students** to people that don't always want to listen.

I'm a **Socialist, Environmentalist** and committed to extending **democracy** to all corners of life: political, social and economic.

**Open • Socialist • Democratic**

## Liberation

Liberation must be at the heart of all Labour Policy:

- **Liberate the curriculum**, introduce LGBT+ education
- **Equal Pay** for Equal Work
- **Reform the GRA**
- **Reform the prison system**
- **Combat Anti-Semitism**

## Student Living

It's my day job to represent students. Labour must not forget that we are the future:

- **Rent controls**
- **Landlord Accreditation** and Licensing for HMOs
- **Ban zero hours contracts**
- Funding for the mental health crisis
- **Grant funding** for university living, in line with the regional cost of living

## A Green New Deal

The **British Economy is in a terrible state**. Growth, productivity and wages are flatlining, and **austerity has failed**. A Labour government **must invest** in green technologies to put us on the road to sustainable growth:

- Bring **energy into public ownership**, and invest in a Green National Grid
- Invest in **free public transportation**
- Invest in alternatives to single use plastics
- **Empower Trade Unions** to represent the interests of working people
- **Empower Local Councils** to deliver local wealth building projects

Through this we can **Rebuild Britain for the Many**, and Save our planet at the same time!
